This Catalog Was Published As Of September 1, 2023.

Notices:

This catalog is a one-year catalog and may contain information which is not current. For the most current information, interested parties should phone (716) 664-5100.

The statements set forth in this catalog are for informational purposes only and should not be construed as the basis of a contract between the student and this institution. The college expects each student to have knowledge of the information presented in this catalog, in the compliance information, and in the student handbook. Failure to read this publication does not excuse students from the requirements and regulations described therein.

In the event of circumstances affecting operations (i.e. fire, flood, hurricane, tornado, pandemic, etc.) the college reserves the right to suspend training for a period not to exceed 90 days, provided that the college evidences positive effectiveness every 30 days to reactivate the training

Jamestown Business College reserves the right to delete any course described in this catalog for any reason. The college also reserves the right to effect any other changes in the curriculum, administration, policies, tuition, and fees without notice. In accordance with Title IX regulations, the New York State Human Rights Law, and Section 504 of the Rehabilitation Act of 1973, Jamestown Business College does not discriminate on the basis of race, color, ethnicity, national origin, religion, creed, age, disability, sex, gender, gender identity, gender expression, predisposing gender characteristics, sexual orientation, marital status, pregnancy, domestic violence victim status, military or veteran status, or criminal conviction in its educational programs, activities, or employment. The Compliance Officer of the college is responsible for coordination with the requirements of these acts.

Jamestown Business College Inc., is organized as a New York corporation. The President is David Conklin; the Vice President is Jill L. Conklin, the Secretary is Julie A. Arnink, and the Treasurer is Pamela M. Reese.

Programs of Study

Bachelor in Business Administration

Business Administration*

HEGIS Code 0506

Management Option

Associate in Applied Science Degree Programs

Business Administration

HEGIS Code 5004

Accounting Option**

Marketing/Management Option

Medical Administrative Option

*Offered evenings only

**Core courses offered evenings only

Note: Enrollment in other than registered or otherwise approved programs may jeopardize a student's eligibility for State and Federal financial assistance. The programs listed in this catalog are registered programs. A student may take a course in any term of his or her program provided that the requirements of any prerequisites are met.

Welcome to JBC!

This catalog contains information about the programs offered as well as all the other information you need to make your plans for college.

Jamestown Business College offers intensive programs that provide the most training in the shortest possible time. All JBC courses are carefully selected by our faculty and academic staff to reflect the demands of today's competitive job market and to develop the student's career and life skills.

On completion of their program, JBC graduates have the choice of starting a career, transferring to another four-year college, and/or completing a Bachelor degree in Business Administration at JBC.

No previous business training is required for admission to Jamestown Business College. Students from nearly any high school program can benefit from a JBC education.

Visit JBC

You are always welcome to visit Jamestown Business College. The best way to find out what a college is really like is by visiting. You can make an appointment to meet with admissions and/or the financial aid staff by calling 716-664-5100 or by visiting www.jbc.edu.

The Historical Mission of the College

When Jamestown Business College was founded in 1886, its charter called for the "establishment of a school designed to qualify young men and women for office requirements at low cost to those whose inclinations and ambitions lead them to business pursuits." The college's mission remains fundamentally the same today.

The college fulfills this mission by offering degree and non-degree programs that develop professional competencies for business careers and provide a general education to contribute to the intellectual and emotional growth of each student. The various programs meet student needs and the demands of the area community. The measure of the college's success will be evidenced by the success of its graduates in finding relevant employment; by the partnerships the college has forged with the business community; and by the opportunities available to students interested in pursuing additional education.

Jamestown Business College is dedicated to the belief that its programs should prepare

students not only to enter the workforce but also to take part fully in today's society. The college offers general education courses to assist students to think logically and critically, to improve their communications skills, to achieve self-knowledge, to work cooperatively in teams, and to develop an appreciation of life-long learning. All of these are essential skills for graduates to possess in our rapidly changing society and increasingly complex workplace.

All students are encouraged by the faculty and staff to achieve their academic and personal potential. To accomplish this, the college provides a supportive environment in which students have access to a range of academic, personal, and career services. It is also important to the college that its student body represent all segments of the diverse community that it serves, adding richness and strength to the teaching and learning process.

Mission Statement

Our mission is to educate today's diverse students with fairness and compassion while equipping them with the practical and professional skills needed for success in their future careers.

The Campus

JBC is located in a primarily residential neighborhood, yet very near the business district of the City of Jamestown. Jamestown is a city of approximately 30,000 people. The city provides an excellent atmosphere for college study. It is large enough to provide many valuable services and attractions but few of the stressful situations associated with large cities.

The main campus consists of two, interconnected buildings. Most classrooms are located in a modern, two-level building. This building also houses a student lounge, with a complete vending area, and computer laboratories. Another building, a former mansion built in 1900, houses computer laboratories, an administrative conference room, classrooms, and faculty offices. Parking is available in four college-owned lots.

As part of our commitment to healthy lifestyles, respect, and well-being, Jamestown Business College became tobacco-free on September 6, 2022. JBC prohibits smoking and the use of tobacco products on all campus-owned grounds, including the picnic area, adjacent sidewalks, and parking lots.

Any students found smoking on campus will receive one verbal warning. A second offense will result in a written warning, and a third offense will result in the student not being permitted on campus.

We're excited to join the movement across the nation for college and university campuses to move toward being tobacco-free.

Students with limiting physical disabilities may attend any of the college's locations. Accommodations, such as arranging for instructional aids and special scheduling, are available to students with special needs. The Dean can provide more information.

Our Students

JBC's co-ed student body consists of approximately 300 students. The majority of our students come from Chautauqua, Cattaraugus, and Warren counties. The college's enrollment is made up of a combination of students attending directly from high school and non-traditional students.

Day, Evening, and Online Schedules

The college offers convenient schedules – Day, Evening, and Online. Each utilizes ten-week terms. Full-time students pursue only two or three courses per term. This allows students to concentrate more fully on their class work than does the usual college schedule requiring students to take five or six courses at one time. The ten-week term allows students to begin studying new and different courses sooner. By including summer sessions, students can complete an associate degree in 18 or 24 months and a bachelor degree in four years or less. (Completion rates may vary.)

At the Jamestown location, Day classes meet weekdays between 8:30 a.m. - 2:30 p.m. Evening classes meet from 6 - 9:50 p.m. two nights plus one online class per week.

Online courses are offered over the five-week schedule. These courses do not have classroom hours, students will log into student portals to watch pre-recorded lectures and complete coursework during the term. Students will have access to instructors and the college while taking online classes.

Online Programs

The college offers online programs in our Bachelor in Business Administration and our Associate in Applied Science with a Marketing and Management Option or Medical Administrative Option.

Blended Coursework

Some courses are offered in a blended format. In a blended course, students will typically meet for a total of 40 hours of classroom instruction and have 20 hours of online instruction.

Accreditation

Jamestown Business College is authorized by the New York State Board of Regents to confer the degrees of Associate in Applied Science and Bachelor in Business Administration.

Jamestown Business College is accredited by the Middle States Commission on Higher

Education, 3624 Market Street, Philadelphia, PA, 19104; (267) 284-5000. The Commission is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Commission on Recognition of Postsecondary Accreditation.

Admissions

Application Process

Associate Degree Program

The goal of the JBC admissions department is to “enroll graduates” and to get students through the acceptance process as efficiently as possible. Please note that all applicants must possess a high school diploma, a General Equivalency Diploma (GED), a Test Assessing Secondary Completion (TASC) Diploma, and must live in a 100 mile radius of the Jamestown Campus. Below is an outline of the steps students need to take in order to be considered for acceptance to JBC.

FIRST, students meet with a JBC admissions representative for a personalized Career Planning Session. During this visit, the admissions representative evaluates the student’s IME (Interest, Motivation, and Effort) to determine his/her commitment level towards college. This personalized meeting helps students select the perfect program and schedule. A full tour of the campus – including the opportunity to meet available faculty, staff, and existing JBC students – also takes place at this time. Parents and family members are encouraged to attend this meeting. Appointments to set up Career Planning Sessions can be made by calling (716) 664-5100 or online at www.jbc.edu. Applicants may also text (716) 640-0631.

SECOND, if the student and admissions representative agree that JBC is a good match, the student may submit an application to the college. Students may start their programs in any of the college’s four terms (fall, winter, spring, or summer). The earlier an application is submitted, the greater the student’s chances are of getting into his/her program of choice.

THIRD, JBC will request a copy of the student’s high school transcript. Please note that all other documentation, for example: GED, TASC, other college transcripts, and immunization records must be provided by the student. To assist in this process, JBC provides students with an admissions checklist.

JBC’s admissions test may be required based upon the student’s high school rank, GED scores or TASC scores. Applicants may also be required to take our admissions test to determine proper placement into their program. JBC reserves the right to administer an admissions test to any applicant to ensure his or her success in our programs. All admissions tests must be taken in person at the Jamestown Campus.

The normal academic parameters for acceptance (and admissions testing) are as follows:

- **High School Graduate***:
 - **Generally Accepted**: If class rank is 33% or above
 - **Generally Tested**: If class rank is under 33%

- **GED***:
 - **Generally Accepted:** If total GED score is 2500 or above (250 for older GED) and individual reading, writing, or mathematic scores are 500 or over (50 for older GED)
 - **Generally Tested:** If total GED score is less than 2500 (250 for older GED) and/or individual reading, writing, or mathematic scores are under 500 (50 for older GED)
- **TASC***:
 - **Generally Accepted:** If total TASC score is 1800 or above and individual reading, writing, or mathematic scores are 600 or over
 - **Generally Tested:** If total TASC score is less than 1800 and/or individual reading, writing, or mathematic scores are under 600

*Exception may also be made at the discretion of the Dean if a student has previous college level courses.

The results of the admissions tests are used as an aid in helping students select a program as well as in the determination of an applicant's suitability for admission to the college. The Dean makes the decision of each student's acceptance to the college. The complete and current admissions policy for Jamestown Business College is on file in the Dean's office.

FOURTH, after submitting an application to JBC, students should go online and complete their Free Application for Financial Student Aid (FAFSA) at www.fafsa.gov. A one-on-one financial planning session may be scheduled with a JBC financial aid representative to determine maximum eligibility. Parents are again encouraged to participate in this important step.

Bachelor in Business Administration Degree

Requirements for application to the upper division are:

Bachelor in Business Administration/Management

- Associate in Applied Science degree in Business Administration from JBC
- Cumulative Grade Point Average of 2.50 or above

Some applicants may need to complete associate-level course work prior to admission into the Bachelor in Business Administration program.

All applicants meet with an admissions representative to determine if the pursuit of a Bachelor in Business Administration (BBA) is in line with the applicant's goals. If appropriate, the applicant may complete an application for admission to the upper division.

The Dean makes the decision of each student's acceptance to the upper division. Current students may be granted conditional acceptance, pending review of final transcript.

A one-on-one financial planning session may be scheduled with a JBC financial aid representative to determine maximum eligibility for grants, awards, scholarships, and student loans.

Transfer of Credit Policy

Jamestown Business College accepts credits as transfer for coursework that meets the following criteria:

1. Credits were earned at an accredited institution.
2. Course objectives must be a close match to a JBC course in the student's program of study.
3. Grade earned is a "C" or better.
4. Credits are no more than 10 years old.

Students who request transfer credit for work successfully completed at another college have the responsibility of ensuring that JBC has received an official transcript from the other institution. Up to 45 quarter credits of at least a "C" grade earned at another college may be applied toward an associate degree at JBC. Up to 42 quarter credits of at least a "C" grade earned at another college may be applied toward a bachelor degree at JBC, plus the completion of an associate degree with JBC.

Transfer to Other Four-Year Colleges

The Dean provides personalized counseling and assistance to students who are interested in transfer. Students interested in transferring should contact the Dean to learn about the institutions to which JBC graduates have recently transferred their JBC credits. Acceptance of credit is solely determined by the institution to which the student is applying.

Immunization Requirements

New York State law requires immunization of most students for measles, mumps, and rubella. New York State Law also requires the college to distribute information about meningococcal disease and vaccination to all students meeting the enrollment criteria. Students may contact the college for more information.

Advanced Placement

Advanced placement in Computer Applications is available to students obtaining a sufficient score on inventory tests administered before the first term of attendance. Students qualifying for advanced placement in these areas will be given credit for Computer Applications I (IT131), accordingly. Advanced placement credit is not eligible for transfer to other institutions.

Academics

Grades and Reports

Final grades are mailed to students' homes at the end of each term. Three times each term, faculty submits to the Dean a report of students who are experiencing academic difficulty. Those students receive academic counseling from faculty and the Dean. The grading system is as follows:

Letter Grade	Grade Range	Grade Points
A	Excellent	4.00
B	Above Average	3.00
C	Average	2.00
D	Below Average	1.00
F	Poor	0.00
W	Withdrawal	
I	Incomplete	

A grade of "Incomplete" will be assigned if a student is unable to complete the course requirements because of extenuating circumstances. Documentation of circumstances must be provided to the Dean's office. An "Incomplete" must be resolved within three weeks after the end of a term unless an extension has been approved by the Dean. Failure to do so results in an automatic grade of "F". In certain cases, an "Incomplete" may need to be resolved prior to the start of subsequent courses.

An "Incomplete" must be resolved prior to the start of subsequent courses and/or terms.

The grade point average (GPA) for each term is determined by dividing the total number of grade points earned (points multiplied by credit hours earned) by the number of credits the student attempted.

Students may only repeat a course one time for which they have received an "F." Students may repeat a course in which they have received a grade of other than "F" only if the repeated course is taken in addition to the regular full-time course load of 12 quarter credit hours. When a course is repeated, the most recent grade becomes the grade of record and is used in calculating the term's grade point average. The first grade remains on the transcript but is not used in calculating the cumulative grade point average.

Withdrawal

Withdrawal from an individual course requires completion of a form provided by the Dean. A student who withdraws from a course on or before the announced “drop date” in the Student Handbook will receive a grade of “W” (withdrew). A student who withdraws from a course after the “drop date” receives a final grade of “F.” Students who withdraw from a course after the “drop date” for reasons other than academic difficulty receive a grade of “W” with the Dean’s consent.

Students wishing to withdraw from the college are required to complete a form supplied by the Dean’s Office. Withdrawal from the college during a term will be effective as of the date of the student’s last recorded attendance. Students who withdraw during the term may have a balance due based on the Title IV refund policy.

If the student is taking 12 quarter credits, they are not eligible to withdraw from a course as it would affect their enrollment status.

Good Academic Standing

Associate Degree Program

Students must maintain good academic standing by meeting the college’s Standards of Satisfactory Progress. Students not in good standing will be suspended or dismissed from the college. Additionally, students not in good standing at the end of a quarter are not eligible for financial aid the following quarter unless they have obtained a waiver as explained below. It is expected that each quarter students will successfully complete a certain portion of the required course work in their program and maintain a required minimum grade point average as explained in the schedule of good academic standing that follows. Note that any grade of “I” must be resolved before the start of any subsequent quarter or be considered as a grade of “F” for the determination of good academic standing. If a student withdraws on or before the “Last Date to Change Schedule” date, thus incurring no tuition liability, the enrollment for the term is not used in determining a student’s academic standing.

Standards of Satisfactory Academic Progress

Associate Degree (Fall 2010 Starts and thereafter)

To be in good academic standing at the beginning of this quarter	First	Second	Third	Fourth	Fifth	Sixth	Seventh	Eighth	Ninth
A student must have accrued at least this many credits	0	3	9	21	33	45	57	69	81
With at least this cumulative grade point average	0	1.30	1.50	1.70	1.80	2.00	2.00	2.00	2.00

Associate Degree (Starts Prior to Fall 2010)

To be in good academic standing at the beginning of this quarter	First	Second	Third	Fourth	Fifth	Sixth	Seventh	Eighth	Ninth
A student must have accrued at least this many credits	0	5	9	18	27	41	54	68	86
With at least this cumulative grade point average	0	1.20	1.50	1.70	1.75	1.80	2.00	2.00	2.00

The maximum time frame in which a student is expected to complete a program is 150 percent of the published length of the program measured in credit hours attempted. For instance, if the published length of a program is 96 credit hours, the maximum time frame in which a student is expected to complete his or her program is 144 attempted credit hours (96×1.5).

The college may grant a student who has lost good academic standing a waiver for one additional quarter of study. The waiver may be granted when such action is deemed in the student's best interest by a faculty committee and only after this action has been requested in writing by the student. Applications for a waiver are available from the Dean. The application must set forth the reasons why the student feels they should be granted a waiver and how the circumstances which caused their academic difficulty have been corrected. As an example, students who fail to be in good academic standing because of a documented illness might be granted a one-quarter waiver.

Students are expected to use the quarter on waiver to correct the reason for their loss of good academic standing by catching up to where they should have been on the schedule at the

beginning of the quarter for which the student was granted a waiver. A student may receive only one waiver as an undergraduate student. To retain their eligibility for these programs, students receiving financial aid must, in each of their first three quarters of study, receive a passing or failing grade in courses totaling at least six credits, nine credits in their fourth, fifth, and sixth quarters; and twelve in each subsequent quarter.

For the purpose of determining eligibility for financial aid, students transferring from another institution will have their standing on the schedule determined according to the number of credits accepted for transfer or according to the number of payments of financial aid previously received. Students dismissed from the college and not in good academic standing must sit out at least one quarter before requesting readmittance. To regain eligibility for financial aid, students who have lost good academic standing must wait one calendar year. The eligibility of students dismissed from the college for readmission will be determined by the Dean.

Standards of Satisfactory Progress

Bachelor in Business Administration

Bachelor Degree (Fall 2010 Starts and thereafter)

To be in good academic standing at the beginning of this quarter	First	Second	Third	Fourth	Fifth	Sixth	Seventh
A student must have accrued at least this many credits	96	108	120	132	144	156	168
With at least this cumulative grade point average	2.50*	2.00	2.00	2.00	2.00	2.00	2.00

Bachelor Degree (Starts Prior to Fall 2010)

To be in good academic standing at the beginning of this quarter	First	Second	Third	Fourth	Fifth	Sixth	Seventh
A student must have accrued at least this many credits	96	102	108	114	120	132	144
With at least this program grade point average	2.50*	2.00	2.00	2.00	2.00	2.00	2.00

*Required for admission to the upper division

President's List and Dean's List

At the end of each term, students attaining superior academic achievement will be recognized by being named to the President's or Dean's Lists. To qualify for the President's List, a student must have earned a GPA of at least 3.90 and completed at least 12 hours of credit. The Dean's List requires that a student earn a GPA of 3.60 – 3.89.

Graduation Requirements

Associate Degree Program

Graduation ceremonies are held in the spring for all students who have completed programs in the previous year.

An Associate in Applied Science Degree is conferred upon those students with the following qualifications:

1. Successful completion of all program requirements including the total hours required for the program.
2. A cumulative Grade Point Average of not less than 2.0.
3. Satisfaction of all Career Development activities.
4. Satisfaction of financial obligations to the college.
5. Degree students must be in resident status while completing the last half of the 96-quarter hours applicable to their program; except that a maximum of 12 quarter credits of non-residence credit may be taken as part of the final 45-quarter credits if approved in advance, and in writing, by the Dean.

In no case will students be awarded a degree with less than 48-quarter credits earned in residence.

Graduation Requirements

Bachelor in Business Administration Program

A Bachelor in Business Administration Degree is conferred upon those students with the following qualifications:

1. Successful completion of all program requirements including the total hours required for the program.
2. A cumulative Grade Point Average of not less than 2.0.
3. Satisfaction of all Career Development activities.
4. Satisfaction of financial obligations to the college.

5. Degree students must be in resident status while completing the 84- quarter-credit hours applicable to the program; except that a maximum of 12-quarter credits of non-residence credit may be taken if approved in advance, and in writing, by the Dean.

Honors

Students with a cumulative Grade Point Average between 3.60 and 3.89 will be graduated with Honors; those with an average between 3.90 and 4.00 will be graduated with High Honors.

Matriculation

Students are matriculated when pursuing a program. Matriculation is generally required for financial aid. Students needing less than 12-quarter hours to complete their program may take additional courses related to their career objectives to meet any full-time requirement.

College Costs

Application Fee

Associate Degree Programs

A \$25 non-refundable processing fee should accompany each application for admission.

Bachelor in Business Administration Program

A \$50 non-refundable processing fee should accompany each application for admission to the upper division. (\$25 for current students)

Tuition Rates

Associate Degree

There is no extra tuition charged to out-of-state (non New York) students. Payment is due three weeks prior to the first day of registration for each term.

Full-time students (12 or more quarter hours of credit) \$4,000 each term	Half-time students \$2,000 each term
---	---

Bachelor in Business Administration Degree

Tuition and fees at the upper division will be the same as the associate level.

Full-time Students (12 or more quarter hours of credit) \$4,000 each term	Half-time Students \$2,000 each term
---	---

College Fee

Bachelor and Associate Programs

A comprehensive College Fee of \$315 per term is required of all full-time students. This fee is in lieu of charges for parking, laboratory use, graduation, and transcripts. Most student activities are provided without cost to students.

Textbooks

The textbooks used at JBC are the same as those used in leading colleges throughout the United States. The estimated cost of new textbooks is \$300 per term; the cost can vary greatly depending on a student's course load and method of purchase. Textbooks and supplies may be purchased or rented from a number of different sources. Some courses utilize free textbooks through Open Educational Resources. Textbooks are available for purchase from the college as a convenience to students.

Living Expenses

This estimate is provided by the college within guidelines established by the federal government:

	Independent Student	Dependent Student
Room & Board	\$ 5,550	\$ 2,225
Personal Expenses	\$ 2,120	\$ 2,120
Transportation	\$ 2,300	\$ 2,300

The above amounts are not paid directly to JBC but are estimates of annual expenses that a student is already incurring and will continue to incur during his/her period of enrollment.

Miscellaneous Fees (Non-refundable)

A Late Payment Fee of \$75 will be added to any student account which is not paid in full when due. Credit will be extended for the amount of finalized financial assistance on file at the college at the time payment is due.

For checks returned to the college for insufficient funds, there is a \$40 service charge added to the student's account.

Replacement of a lost student ID is \$15.

Students not registering for classes at assigned times may be required to pay a Late Registration Fee of \$25.

Students parking in spaces reserved for the handicapped or for visitors may be charged a \$50 fine.

Costs listed are projected for the 2023-2024 academic year. The college reserves the right to increase tuition and fees as may be required. Current information regarding costs of attendance may be obtained by contacting the college.

Tuition Refunds

A student is considered to have withdrawn from JBC if the student does not complete all of the days in the payment period that he/she was originally scheduled to complete. Tuition less tuition deposit will be refunded for any quarter not attended. If a student withdraws or is terminated for any reason, his or her account will be adjusted according to the college's refund policy. JBC takes daily attendance and a student's withdrawal will be effective as of the last day of recorded attendance. Any refunds due the student will be paid within 30 days of the student's last date of attendance or the date of determination of a student's last date of attendance. For students registered for 6 or fewer quarter hours of credit there is no refund policy.

Tuition adjustments will be calculated as follows: within the first week, 70 percent of tuition will be credited; within the second week, 40 percent; within the third week, 25 percent. After three weeks, no credit is allowed. A week is defined as a seven-day period not including any scheduled holidays or vacations. The first week of a term begins with the first day of scheduled classes.

A student will receive a full credit of tuition when withdrawal occurs on or before the published "last date to change schedule" date.

Any student changing from full time to part time at a point in time beyond the "last date to change schedule" date will not receive a tuition credit.

The JBC tuition refund policy is determined by the college and does not affect the amount of Title IV aid that a student has earned under the federal Return of Title IV Funds Policy.

Students are counseled on an ongoing basis regarding their attendance. A student can officially withdraw from the college by completing a withdrawal request with the dean or the registrar.

Return of Title IV Funds (Federal Pell Grant & Federal Direct Loans)

Title IV funds are awarded to a student under the assumption that the student will attend school for the entire payment period for which assistance is awarded. When a student withdraws, the student may no longer be eligible for the full amount of Title IV funds that he/she was originally scheduled to receive.

Title IV funds at JBC consist of the Federal Pell Grant and the Federal Direct Loan Programs.

JBC's faculty is required to take attendance, and; therefore, a student's withdrawal date is always the last date of attendance as determined by attendance records.

The percentage of aid earned is equal to: the calendar days completed divided by the number of days in the payment period. If a student has completed **more** than 60% of the days, 100% of the Title IV funds have been earned. If the completion is less than 60%, an R2T4 (Return to Title IV) adjustment is required.

JBC is required to return federal funds within 45 days.

Refunds are allocated in the following order to eliminate outstanding balances owed to:

- Unsubsidized Federal Loans
- Subsidized Federal Loans
- Federal PLUS Loans
- Federal Pell Grants
- Any other Title IV Aid
- Other federal, state, private, institutional assistance
- The student

Financial Assistance

The college is proud of its success in providing financial aid assistance to our students. The size of our student body makes it possible to work out the maximum benefits for each student through individual counseling with the student and his/her family when appropriate. All students are encouraged to apply for financial aid.

Prospective students should complete financial aid applications online by using the Free Application for Federal Student Aid (FAFSA) at www.fafsa.gov. JBC labs are available for this purpose. Our financial aid staff is available for individual assistance.

To receive aid, an applicant must: (1) be a matriculated student; (2) be a U.S. citizen or eligible noncitizen; and (3) not be in default or refund status for any aid programs at any institution. To remain eligible for aid, a recipient must remain in good academic standing while making satisfactory progress toward completion of the program in which the student is enrolled.

A student's eligibility for aid may also be affected by their financial dependency status. The student circumstances affecting the determination of dependency or independency for financial aid purposes vary by aid program. The college's Financial Aid Office can provide more information on this matter.

If a student feels their dependency status is incorrect they can request a Professional Judgement be completed by the financial aid department. If a student feels their financial situation has changed they can request a Professional Judgement be completed to see if the Pell award can be adjusted. If a student transfers in with a Professional Judgement, it will still apply to their financial aid application.

Most student aid is received by the college and applied to the student's account each term with credit balances paid to the student. For additional information on any of the aid programs, please contact the JBC Financial Aid Office.

Grants

Federal Pell Grant

The Federal Pell Grant Program is an entitlement program with eligibility based on financial need. The applicant must be an undergraduate, enrolled at least half-time. Awards may be used for tuition, fees, books, and living expenses. A Pell Grant is awarded without regard to any state grants. Application is made annually by completing the Free Application for Federal Student Aid. In response to the application, each applicant receives a Student Aid Report (SAR) which contains an Expected Family Contribution (EFC). The EFC is calculated using a formula specified by Congress to indicate a student's ability to pay college costs. Awards for 2023-2024 range from \$750 to \$7,395. Individual awards are determined by the EFC, costs of attendance, and enrollment status.

New York State Tuition Assistance Program (TAP)

TAP is an entitlement program available to New York State residents attending an eligible institution in New York State on a full-time basis. TAP awards are based on tuition and the family's New York net taxable income.

Based on 2023-2024 schedules, awards for first-time recipients range from \$500-\$6,895 for dependent undergraduates or independent undergraduates with dependents. Independent students without dependents may be eligible for \$500 - \$5,665 per year.

TAP recipients are limited to awards for three academic years while pursuing an associate degree, and four academic years while pursuing a bachelor degree. Additionally, a "C" grade average is required after the second year to remain eligible for TAP in the third year.

Applicants apply annually by indicating on their Free Application for Federal Student Aid (FAFSA) that they are a New York State resident attending a college in New York State. Upon approval, students receive an award notification.

Full time attendance is required to receive a TAP Award. At JBC, many students' TAP Awards will be delayed until the sixth week of the term when attendance in their second class begins.

Loans

Federal Direct Loan Program

Federal Direct Loans are low-interest loans from the U.S. Department of Education that are administered by Jamestown Business College.

Direct Loans consist of three different types of loans; Subsidized Stafford, Unsubsidized Stafford, and Parent Loans.

A full financial aid counseling session will assist students in determining their need for federal loans. Below is an outline of necessary steps in the process.

Applicants are required to complete the FAFSA before loan eligibility can be determined.

Master Promissory Note (MPN) and Direct Loan Entrance Counseling

It is a requirement for students receiving Federal Direct Loans to sign an electronic MPN and to complete loan entrance counseling. Please visit <https://studentloans.gov> and follow instructions to complete these steps.

Loans for a full school year are disbursed separately in equal amounts for each term. Loans are sent directly to JBC via electronic funds transfer.

Subsidized Federal Loans

Subsidized loans are available to help students meet their financial obligation after all other resources are considered. Students do not have to pay principal or interest on their subsidized loans while they are in school at least half-time, and for a six-month grace period after which repayment of the loan and interest must begin.

Undergraduate students may borrow up to \$3,500 per academic year for their first year of study and \$4,500 per year in their sophomore year. Bachelor degree students may borrow up to \$5,500 per academic year.

The current interest rate for a Subsidized Loan is fixed at 5.50 percent. There is no prepayment penalty. Repayment of principal may be deferred under certain circumstances.

There is a federal loan fee of 1.057 percent deducted from loan disbursements.

Unsubsidized Federal Loans

Unsubsidized Loans are available to all students, and are not based on financial need. The total amount borrowed, including subsidized loans, cannot exceed educational costs for that year less any other financial aid received. Principal payments are deferred while the borrower is a full-time student. However, interest is billed and due quarterly.

The current interest rate for an Unsubsidized Loan is fixed at 5.50 percent.

There is a federal loan fee of 1.057 percent deducted from loan disbursements.

Federal Parent Loans for Undergraduate Students (FPLUS)

This program is available to the parents of dependent students. A parent can borrow the amount of aid needed to cover educational costs after other financial aid has been applied. Loans are disbursed directly to the college via electronic funds transfer. The current interest rate is fixed at 8.05 percent. Repayment begins 60 days after the loan is disbursed.

There is a federal loan fee of 4.228 percent deducted from loan disbursements.

JBC Awards & Scholarships

Academic Progress Award (Associate Level)

Awarded yearly to 1 senior and 2 juniors per area high school who demonstrate academic effort and improvement along with a strong work ethic. Recipients are chosen by their respective high school officials. This award covers full tuition for six terms of study toward a JBC associate degree. **Awards are applied after financial aid grants** and a cumulative GPA of 2.5 is required to maintain this award for a subsequent year of study.

Business as a Career Award (Associate Level)

Awarded yearly to 3 seniors and 2 juniors per area high school who demonstrate academic effort and improvement along with a strong work ethic. Recipients are chosen by their respective high school officials. This award covers full tuition for eight terms of study toward a JBC associate degree. **Awards are applied after financial aid grants** and a cumulative GPA of 2.5 is required to maintain this award for a subsequent year of study.

Entrepreneurship Award (Associate Level)

Awarded yearly to 2 seniors per area BOCES and Warren Career Center who demonstrate strong work ethic and an interest in owning or managing a business. Recipients are chosen by their respective BOCES/WCC officials. This award covers full tuition for six terms of study toward a JBC associate degree. **Awards are applied after financial aid grants** and a cumulative GPA of 2.5 is required to maintain this award for a subsequent year of study.

Scholar of Excellence Award (Associate and Bachelor Level)

Awarded to area high school seniors graduating in the top 25% of their class. Award covers eight terms of study toward an associate and seven terms of study toward a bachelor degree program at JBC. **Awards are applied after financial aid grants** and a cumulative GPA of 2.5 is required to maintain this award for a subsequent year of study.

- NYS Residents – Award covers full tuition for six and seven terms respectively. **Awards are applied after financial aid grants.** Cumulative GPA of 2.5 is required to maintain award for subsequent years of study.
- Out-of-State Residents – *JBC requires NO OUT-OF-STATE TUITION* Award covers 50% of tuition for six and seven terms respectively. **Awards are applied after financial aid grants.** Cumulative GPA of 2.5 is required to maintain award for subsequent years of study.

High School College Access Award (Associate and Bachelor Level)

Awarded to selected high school seniors in NYS who would benefit from a small and supportive college environment. Guidance counselors recommend students who are contemplating putting-off college due to financial roadblocks. This award covers college fees and full tuition for eight terms at the associate level and seven terms at the bachelor level. **All awards are applied after financial aid grants.**

John August Johnson Scholarship (Associate Level)

Administered by the Chautauqua Region Community Foundation (CRCF) and awarded exclusively to JBC students pursuing their associate degree who show academic promise and financial need. Candidates must submit an essay describing why JBC is their college of choice. Awards range from \$500 to \$1500 annually, and a cumulative GPA of 2.5 is required to maintain this award for a subsequent year of study. CRCF disburses over \$20,000 per year to John August Johnson recipients. For complete information on all Foundation scholarships available to JBC students, contact the Chautauqua Region Community Foundation at 716-661-3390 or crcfonline.org

Tyler C. Swanson Award (Bachelor level)

JBC Associate degree graduates going directly into the Bachelor in Business Administration degree (BBA) program are eligible to apply for this award. Typically, one candidate per term is selected (4 terms/year) and a minimum GPA of 3.0 is required to apply. Awards cover full tuition for the last 2 terms of study in the BBA program and **awards are applied after financial aid grants.**

Adult College Access Award (Associate and Bachelor Level)

Awarded to non-traditional students who would benefit from a small and supportive college environment and who are contemplating putting-off college due to financial roadblocks. Candidates are selected by the JBC Scholarship Committee and must display a 0 EFC on their Student Aid Report. Award covers full tuition and fees for eight terms of study toward a JBC associate and seven terms of study toward a bachelor degree and **awards are applied after financial aid grants.**

Bilingual Advancement Award

(Associate and Bachelor Levels)

Awarded to Bilingual individuals who would benefit from a supportive college environment. This award covers full tuition and college fees for eight terms of study toward a JBC Associate and for seven terms of study toward a Bachelor degree. **All awards are applied after financial aid grants.**

Local Scholarship Opportunities

Many service and professional organizations, corporations, and local groups offer scholarships and grants for college students. It is to the student's advantage to explore as many avenues as possible in the search for financial aid. High school guidance counselors may be able to bring some of these opportunities to the student's attention. A student can contact professional organizations, local churches, and service organizations. Students are also encouraged to search the web for *free* scholarship opportunities.

Agency Assistance

Assistance from the following programs is based on individual circumstances. For detailed information, contact the Financial Aid office.

- * Veterans Administration Educational Benefits
- * Student Aid to Native Americans
- * Local One-Stop Locations (Chautauqua Works, Warren Career Link, etc.)
- * Regents Awards for Children of Deceased or Disabled Veterans

The availability of financial aid programs, eligibility criteria, and award levels are subject to change by legislative action, etc. Students are encouraged to contact the Financial Aid Office for the most up-to-date information.

Veterans Benefits and Transition Act of 2018

In accordance with Title 38 US Code 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch.33) or Vocational Rehabilitation and Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. This school will not:

- Prevent nor delay the student's enrollment;
- Assess a late penalty fee to the student;
- Require the student to secure alternative or additional funding;
- Deny the student access to any resources available to other students who have satisfied their tuition and fee bills to the institution, including but not limited to access to classes, libraries, or other institutional facilities.

However, to qualify for this provision, such students may be required to:

- Produce the Certificate of Eligibility by the first day of class;
- Provide written request to be certified;
- Provide additional information needed to properly certify the enrollment as described in other institutional policies.

Effective August 2, 2019

Student Life

College Newsletter

The college publishes a weekly newsletter with valuable information for our students. Information includes financial literacy, Title IX, domestic violence, college policies, as well as school activities.

Student Activities

All students are encouraged to participate in a variety of extracurricular activities that complement their educational experience. There are various activities, most offered free to the student body, each year. The Jamestown community offers several cultural activities including concerts and live theater. Many events of this type are held at the Reg Lenna Theater in downtown Jamestown and at the world-renowned Chautauqua Institution in Chautauqua, New York.

Student Housing

JBC does not offer student housing on campus. Students needing assistance with housing should speak to their admissions representative at application. JBC admissions and student services will assist students by suggesting apartment complexes in the area. Assistance in making appointments to visit these complexes will also be given upon request.

Student Handbook

The Student Handbook contains a great deal of material useful to students. All students are responsible for having knowledge of its content. The Handbook provides information on student rights and responsibilities as well as on the Jamestown area. Handbooks are distributed electronically at registration. The handbook may also be viewed on Inside JBC, the college's Intranet.

Emergency Notification System - Orbund

Jamestown Business College uses a service provided by Orbund for school emergency and closing notifications.

Orbund allows the college to text, students, faculty, and staff all at once by sending one message. All texts go out in minutes. All texts are audited so Jamestown Business College knows which texts were delivered or undelivered.

College closings are published on the college web site.

Students must understand their role in ensuring that the college has accurate contact information. Students will be asked to provide current contact information each term. If this information changes, students must provide the college with their updated information.

Compliance Information

Prior to enrollment, at application, all students are given a copy of the JBC Compliance Information. This pamphlet contains a great deal of information that is required to be disclosed to students before enrolling. The information is also available in the Student Handbook. Any student needing a current copy may obtain one from the registrar.

Academic Counseling

Academic counseling begins with the student's admissions interview and continues throughout their program at Jamestown Business College. The Associate Dean is accessible to a student who has questions related to his or her program or academic status. A meeting with the Associate Dean is required of any student who is experiencing academic difficulty as indicated by academic reports submitted by faculty to the Associate Dean.

New Student Orientation

Jamestown Business College provides an orientation program for all new students. Traditional students (students enrolling directly from high school) take part in a Freshman Orientation Program during the summer. Orientation is held during registration week for all other students. The program is designed to make the adjustment to college life as comfortable as possible. Students become acquainted with the services and activities that JBC offers and are presented information intended to enhance their opportunities for academic success.

Campus Trespass / Ban Policy

Jamestown Business College is a private institution of higher education that is open to the general public. However, the college has the ability to determine the expectations and parameters for an individual's presence on college property. The college retains the right to restrict access to college property due to safety considerations relating to its students, faculty, staff and visitors.

This policy applies to employees and students of the college as well as those members of the public who have no affiliation with the university.

Policy

To maintain a safe and secure educational environment, Jamestown Business College reserves the right to ban from college property or facilities any individual who has exhibited behavior, which has been deemed harmful to the college community (property or person). The college has full authority to execute ban notices to any individual who is reasonably believed to pose a safety risk and/or threat to the community including, but is not limited to,

actions by an individual that result in offenses against persons and/or property, disruption of college events or processes, violation of college policy and procedures or law, and continued patterns of abuse and/or infringement of college policy and procedures.

Procedure

Any member of JBC's administration has the discretion to ask an individual to leave campus or a specific area of campus, and based on his/her observations and/or investigations, has the authority to ban the individual from returning to any property owned, controlled or leased by the college. Ban notices may be mailed, or otherwise communicated, and do not require contact with a member of the college.

Protocol

In circumstances involving an individual who has no affiliation/relationship with the college and who is reasonably believed to pose a safety risk and/or threat to the community, the college has full authority to execute ban notices to said individual and the afore described procedure shall be followed.

If the individual is a former employee who has been separated from the college and the President requests a ban order, the afore described procedure shall be followed. If the individual is a current employee who has been placed on suspension from employment and the Director of Human Resources requests a ban order, the afore described procedure shall be followed.

If the individual is a student who has been referred to the Dean's Office or is the subject of a complaint made with the Dean's Office, the student may be banned, on an interim basis, from certain/all areas of the campus pending the resolution of his/her student disciplinary matter. The ban notice will be issued by the President of the College. If, after the disciplinary hearing, the student is suspended or expelled, the Dean will notify the student of the outcome, including their sanctions, and, if applicable, that they will thereafter receive a ban notice from the college. If the student is banned from only one part of campus, the notification will come from the Dean's Office.

Policy for Service & Emotional Support Animals on Campus

Jamestown Business College is welcoming of individuals with disabilities who use service animals (ESA) because of a disability. In regard to permitting service animals, JBC complies with state and federal laws regarding individuals with disabilities. The college does not generally permit animals in campus buildings except as this guidance accommodates, unless

the animal is present for the purpose of academic instruction, JBC services, or JBC-hosted programs.

Service animals

Only dogs and miniature horses (generally between 24 and 36 inches high and weighting 70 to 100 pounds) may be service animals. A service animal is an animal that has been trained to perform specific work or tasks for a person with a disability, including a physical, sensory, psychiatric, intellectual, cognitive, medical, or other mental disability. The mere provision of emotional support by the animal's presence does not make an animal a service animal. Common service animal training might include guiding people who are blind or deaf, notifying a person of an imminent seizure, intentionally pawing or nuzzling a person with Post Traumatic Stress Disorder to calm anxiety, reminding a person to take medication, or intentionally applying calming pressure to a person prone to anxiety or panic attacks.

Service animals are permitted everywhere on campus that the animal may reasonably accompany a person with a disability. This includes classrooms, offices, residence halls, lounges, and common areas. The college may on a case-by-case basis exclude the animal from laboratories or other areas where the presence of the animal may cause an unavoidable hazard, health risk, or where the animal's presence would fundamentally interfere with the service or instruction provided.

When it is not obvious what service an animal provides, or when there is a reasonable basis to conclude that the animal might not be a service animal, staff may make limited inquiries. Staff may ask only two questions: 1) is the dog a service animal required because of a disability, and 2) what work or task has the dog been trained to perform.

JBC does not require individuals with service animals to receive permission to have their animal with them on campus, nor is there pre-clearance requirement for the presence of the animal on campus.

Students with service animals shall never be segregated from the general population of students or campus visitors.

Emotional support animals

Emotional support animals are not service animals. Emotional support animals provide emotional support that alleviates the symptoms or effects of a person's disability, but might not be specifically trained to perform any task or function, or otherwise meet the limited definition of a service animal. Emotional support animals are also sometimes called comfort animals or therapy animals.

Because emotional support animals are not service animals, they are not permitted within campus buildings.

Responsibilities of the owner

Service animals must be kept near the person with a disability and are not permitted to run free.

The animal must be compliant with applicable vaccination laws. Students, faculty, and staff who intend, in conformance to this policy, to have an animal with them in campus buildings on a regular basis should submit to the Dean's office a copy of the animal's vaccination history from a veterinarian or other authorized person to verify compliance with local ordinances.

The animal must be restrained with a harness, leash, or tether of some kind unless the nature of the disability and the animal's training precludes such physical restriction. If this is the case, the animal must be reliably controlled by voice or a substitute method of restriction. The animal's excrement or other refuse must be disposed of by the owner in a prompt and hygienic manner. Owners are expected to control the volume of their animal and quell any unreasonable loudness or excitableness. Animals may not under any circumstances be permitted to jump on, lick, nudge, growl at, or otherwise engage another member of the campus community.

Animals must be properly cared for, fed, and maintained in reasonable health with due diligence. JBC personnel will not be responsible for cleaning up after an animal, feeding an animal, or watching the animal for any amount of time under any circumstance.

Exceptions

JBC may ask an individual to remove an animal from a campus building or property if:

- The animal is disruptive to instruction, services, or the use of facilities.
- The animal poses a health or safety risk or a direct threat.
- The animal does not have acceptable hygiene or is not housebroken.
- The animal is not kept under control.
- The animal is no longer performing a role of disability related service or assistance.
- The animal's owner does not clean up after the animal.
- The owner does not comply with any other element of this policy.

Students who feel that they have been asked to remove their animal arbitrarily or otherwise feel this policy has been enforced against them unfairly may file a grievance with the Dean's office.

Career Development

JBC Career Development

It is the combination of academic and “soft-skills” that gives JBC students the total package when applying for employment. To add to the value of a JBC education, graduates of all programs can utilize services from the Career Development Office at no additional cost.

*Some of the activities below take place in the colleges general education courses.

Successful U.

Associate Degree Program – Year 1

Successful U. is a program designed to support the academic and personal success of students. Activities focus on personal development and behavior in the workplace, and participation in Successful U. is a JBC graduation requirement. Topics covered include subjects such as:

- Problem Solving (COM242)
- Teamwork & Communication (COM242)
- Marketing Yourself (Professionalism, Social Media, Networking Opportunities, etc.) (ENG252)
- Financial Literacy (MA242)
- Health & Wellness (PSY242)

E.D.G.E.

Associate Degree Program – Year 2

JBC’s E.D.G.E. (Etiquette, Dress, Goals, and Ethics) program allows students to gain realistic experience in professionalism through a series of activities and simulations. These events help students to become more confident and better prepared for business events. E.D.G.E. participation is a JBC graduation requirement. Topics include:

- Professional Image Day/Dress for Success (COM242)
- Developing an Excellent Résumé (ENG252)
- Mock Interviews (COM242)
- Graduation/Exit Conference, Goal Setting, and Career Growth

Résumé Referral Services

All Programs

Jamestown Business College has developed an excellent reputation with area businesses, and many companies contact JBC's Career Development Office throughout the year with career opportunities. It is not uncommon for employers to call JBC exclusively with available positions.

JBC's Résumé Referral Service is available to all graduates, free of charge. In order to receive services, graduates must submit a final résumé to the Career Development Office and indicate if they wish for their status to be "active" or "inactive" for sending it out to potential employers. Graduates should contact the Career Development Office to receive assistance and may change their status (active/inactive) at any time. **Please note that JBC makes no promise of employment to any student.**

Student Opportunities

All Programs

JBC's Career Development Office will post part-time employment opportunities on the employment bulletin board. Education is our primary concern; therefore, students are encouraged to work a limited number of hours so as to not interfere with class schedules and completion of programs.

Campus Security and Right-to-Know

Pursuant to Public Law 101-542, the Student Right-to-Know and Campus Security Act, JBC reports the following:

GRADUATION AND TRANSFER-OUT RATES

JBC is pleased to provide the following information regarding our institution's graduation/completion and transfer-out rates. The information is provided in compliance with the Student Right-to-Know Act of 1990 (P.L. 101-542).

NCES and Other Grad Rate Data

Due to the nature of our bachelor degree, a 2 and 2 program, we do not have full-time, first-time enrollees in the bachelor program. These statistics are for non-bachelor programs.

Jamestown Business College's graduation rate as reported to the National Center for Education Statistics are as follows: Of the 107 full-time, first-time, degree seeking students entering the college in Fall of 2016, 50% graduated within 150% of the "normal time" to completion for their program. The disaggregated statistics by gender and race/ethnicity are as follows:

Overall Rate	Cohort	Rate
Overall Rate	107	50%

Gender	Cohort	Rate
Female	75	48%
Male	32	56%

Race or Ethnicity	Cohort	Rate
Hispanic/Latino	24	46%
American Indian or Alaska Native		
Asian		
Black or African American		
Native Hawaiian or other Pacific Islander		
White	80	51%
Two or more races	3	67%
Non Resident Alien		
Race or Ethnicity Unknown		

By Grant Loan Recipient	Cohort	Rate
Pell Recipient	72	51%
Subsidized Stafford Recipients(No Pell)	5	40%
No Pell or Subsidized Stafford	30	50%

The most recently completed statistics for our non-bachelor programs are as follows:

Of the 110 full-time, first-time, degree seeking students entering The College in Fall of 2019, 43% graduated within 150% of the "normal time" to completion for their program. The disaggregated statistics by gender and race/ethnicity are as follows:

Overall Rate	Cohort	Rate
Overall Rate	110	43%

Gender	Cohort	Rate
Female	64	44%
Male	46	41%

Race or Ethnicity	Cohort	Rate
Hispanic/Latino	3	0%
American Indian or Alaskan Native	3	0%
Asian		
Black or African American	1	0%
Native Hawaiian or other Pacific Islander		
White	92	47%
Two or more races	11	36%
Non Resident Alien		
Race or Ethnicity Unknown		

By Grant Loan Recipient	Cohort	Rate
Pell Recipient	87	40%
Subsidized Stafford Recipients(No Pell)	1	100%
No Pell or Subsidized Stafford	22	11%

The Advisory Committee on Campus Safety will provide upon request all campus crime statistics as reported to the United States Department of Education. The Compliance Officer, Erica Sheesley, is the contact person for the Campus Safety Committee (716-664-5100). For more information regarding the crime statistics at Jamestown Business College, please visit <http://ope.ed.gov/security>. The annual security report is posted to the college's website.

Programs of Study

Associate Degrees

Business Administration

Accounting Option

The Accounting option prepares a student for a career of great potential. Accountants generate the financial information that is necessary for the successful operation of any business or governmental agency. Students learn to properly record and classify financial data and to acquire insight into successful managerial techniques.

General Education

General Education Statement

Jamestown Business College is dedicated to the idea that, to be successful, students should possess not only technical skills to enter the work force but also the skills to prepare them to fully take part in today's society. Therefore, the college's curriculum is designed around three specific groups of courses: (1) a set of courses that concentrates on skills all students need in a business-related environment; (2) a set of courses that is necessary to complete a specific option within their degree; and (3) a general education component that is designed to develop an individual well positioned for success in today's complex society.

The objective of Jamestown Business College's general education requirement is to develop the total student. This entails providing a philosophy, culture, and environment of free thought allowing the student to discover self-awareness and foster intellectual development. Students should have sufficient understanding of contemporary issues so they may make informed decisions in politics, professional pursuits, and personal endeavors.

General Education Goals

- To develop strong written and verbal communication skills
- To exhibit an understanding of diverse perspectives and cultures
- To develop critical thinking and utilize problem-solving and decision-making skills
- To work effectively as a team member
- To develop information literacy and strong research skills
- To develop a sense of community responsibility
- To develop strong quantitative reasoning skills

Course Descriptions

Associate Degree Program

ACC101 Accounting I (6)

This is a comprehensive course in the theory and practice of accounting, including the fundamental principles of analyzing, recording, and summarizing the transactions of a business. The complete accounting cycle, from journal entries to the preparation of financial statements, is presented. In addition, the interpretation and analysis of financial statements is studied. The student is also introduced to the application of computers in accounting and will complete a brief project in connection with a computerized general ledger system.

ACC202 Accounting II (6)

This is a course primarily concerned with corporation accounting including characteristics of a corporation and keeping various corporate records. Stress is placed on stock procedures and financial statement analysis. Additional emphasis is placed on fixed assets, depreciation, inventories, accounts receivable, and the statement of cash flows. The course also incorporates the writing and the presentation of business memos. The student is introduced to the use of computers in controlling and maintaining the inventories and fixed assets of a business enterprise.

Prerequisite: ACC101

ACC203 Tax Accounting (6)

This course provides an in-depth study of the federal income tax statutes and regulations relating to the taxation of individuals and sole proprietorships. Practical tax problems are reviewed to demonstrate the proper application of the tax code and the preparation of tax returns, supplemental forms, and schedules required to be filed for individuals. Students explore and utilize the various tax resources that can be found on the Internet. Current issues in tax accounting and tax planning are researched and discussed.

Prerequisite: ACC101

ACC204 Managerial Accounting (6)

This is a comprehensive course in the application and the analysis of accounting information in the management decision-making process. Topics include operating costs and cost allocation, including activity-based costing; job order and process costing; cost-volume-profit analysis; standard costing with variance analysis; budgeting and performance analysis; and evaluation. The formulation, the presentation, and the interpretation of management reports are incorporated into the course. Computer software is used in solving applications problems.

Prerequisite: ACC101

ACC205 Intermediate Accounting (6)

This course provides for an intensive study of accounting theory and practice as they pertain to principal items appearing on the financial statements of a corporation. The course places considerable emphasis on the proper preparation of financial statements and a comprehensive study of problems in accounting for cash, receivables, investments, and earnings management.

Prerequisite: ACC101

COM242 Effective Oral Communication (6)

This highly practical course emphasizes the delivery of impromptu and informative speeches with attention to speech preparation, research, organization, and delivery. Also included is an intensive, hands-on section on the job interview process. Additional topics include communication theory and the development of strong interpersonal and group communication skills with emphasis on both the verbal and the nonverbal aspect of communication.

COM262 Public Relations and Customer Service (6)

This course focuses on the importance of customer service and public relations in today's business environment. Topics include: personal selling, current customer service trends, understanding customer loyalty, exceptional service, conflict and complaints, techniques to diffuse difficult situations, challenges with online customers, and using technology to serve customers. Additionally, students will explore media kits, news releases, public service announcements, event planning, social networks, company websites, and will understand the importance of sales in the business environment. Students completing this course will also learn the fundamentals of design. This course is cross-listed with MKT224.

ECO242 Macro- and Microeconomics (6)

This introductory economics course will provide students with an understanding of both microeconomic and macroeconomic principles. Microeconomic topics to be discussed include principles of price determination, creation of value, distribution of income, competition, and principles of international trade. Students will also be introduced to applied topics in microeconomics such as imperfect markets, including monopoly, oligopoly, and monopolistic competition, and uncertainty in investment and capital markets. Macroeconomic topics to be discussed include employment, inflation, business cycles, and growth. The course will also allow students to gain insight concerning policies for economic stabilization and full employment. The U.S. monetary system will be highlighted with comparison to other world markets on topics such as the roles of financial institutions, commercial banking, the creation of money, the Federal Reserve and monetary policy, and the macroeconomic relationships among money, interest rates, inflation, and gross domestic product.

ENG151 Academic Writing and Research (6)

This course is designed to develop strong writing skills that focus on writing common throughout the academic disciplines resulting in the expression of ideas in a coherent, organized fashion. A strong emphasis is placed on the essay writing process. Topics also focus on acquiring relevant introductory research skills with an emphasis on the MLA and APA styles of documentation and ethical standards of writing.

ENG252 Writing for Business (6)

This course is designed to expand the writing skills utilized in Writing and Research (ENG151). Emphasis is placed upon practical techniques of professional communication through letters, memorandums, proposals, employment correspondence, graphics and electronic communications. Workshops are utilized to teach components of effective business writing, including an emphasis on critical thinking skills.

Prerequisite: ENG151

IT131 Computer Applications I (6)

This course is designed to introduce the student to the most common applications for computers in business today. The course will cover operating systems focusing on Microsoft Windows and Windows based applications. Specific topics covered will include word processing, presentation graphics, e-mail, document sharing, web site creation, and creating images for web sites. The focus of the course is to teach students to use and to apply these applications in a business setting. All applications are taught by a combination of lecture and hands-on use of the computer. The focus of the course is to teach students to use and apply these applications in a business setting. All applications are taught by a combination of lecture and hands-on use of the computer.

IT232 Computer Applications II (6)

This course is designed to expand the student's understanding of the computer applications used in business today. Topics covered include spreadsheets, databases, and personal information managers. In the process of the course, students will create various business spreadsheets; a small database including tables, queries, forms, and reports; and use all aspects of a network personal information manager including e-mail, calendar, contacts, and tasks in a business context. All applications are taught by a combination of lecture and hands-on use of the computer.

Prerequisite: IT131 or Advanced Placement Credit

MA242 Mathematics – College and Financial Applications (6)

This course focuses on conventional algebraic concepts and statistical and financial math applications with a concentration on the development of problem-solving techniques. Topics of study include solution and application of equations, present and future value of money, interest and discount calculations, statistics, measures of central tendency, and payroll calculations.

MGT262 Management – Principles and Skills (6)

This course provides an in-depth look at management theory, practices, and group behavior common to all organizations. It discusses models, techniques, and behavioral science applications used in directing and improving the performance of the organization in an ethical fashion. Topics of study include organizational culture, motivation, group dynamics, team building, conflict, planning, and leadership. Through case study analysis, students will be presented the opportunity to learn and develop problem-solving and decision-making skills.

MKT121 Marketing Principles (6)

This course serves as an introduction to marketing and the many diverse functions performed by marketing and marketers in the complex, modern business world. The concept of how marketing directs the flow of goods in the economy, consumer behavior, pricing policies, market research, the marketing mix, sales strategy, and other topics related to the consumer-related market structure are explored in depth. Marketing ethics, the product life cycle, and the function and role of competition will be explored in detail. Emphasis is placed upon the student use of the basic tools of market research and the use of models for prediction of product performance in the marketplace. Students will learn how to apply the Internet to marketing functions and procedures.

MKT222 Integrated Marketing Communications (6)

This course will emphasize the study of managing the marketing process. The course focuses on the communication mix variables of advertising, personal selling, sales promotion, and publicity. Major topics of study include advertising's position in the marketing mix, creative aspects, copy writing, and campaign strategies. The course also gives students an analytical approach to selling problems, sales force objectives, compensation, training, evaluating, and territorial design.

Prerequisite: MKT121

MKT223 Marketing & Social Media Applications (6)

This course is designed to provide a comprehensive study of marketing, the process through which organizations analyze, plan, implement, and control programs to develop and maintain beneficial exchanges. Effective marketing is critical for the long-term success of any business organization because this function ensures that the firm attracts, retains, and grows customers by creating, delivering, and communicating superior customer value. A strong emphasis is placed on the creation of a comprehensive marketing plan. This course also takes an examines how organizations capitalize on social media to support their marketing efforts. Students will get hands-on experience creating comprehensive social media strategies for active brands. Prerequisite: MKT121

MKT 224 Public Relations and Customer Service (6)

This course focuses on the importance of customer service and public relations in today's business environment. Topics include: personal selling, current customer service trends, understanding customer loyalty, exceptional service, conflict and complaints, techniques to diffuse difficult situations, challenges with online customers, and using technology to serve customers. Additionally, students will explore media kits, news releases, public service announcements, event planning, social networks, company websites, and will understand the importance of sales in the business environment. Students completing this course will also learn the fundamentals of design. This course is cross-listed with COM262.

OFT112 Medical Terminology, Anatomy & Physiology (6)

This course is designed for the student preparing for a career as an administrative or office assistant in a medical environment; the course study centers on terminology related to the following human body systems: digestive, urinary, skin & membranes, reproductive, endocrine, nervous, musculoskeletal, respiratory, cardiovascular, and special senses. Emphasis is placed on the spelling, pronunciation, and meaning of terms.

OFT211 Medical Office Systems (6)

This is an advanced course for those pursuing a career in a medical environment. Topics to be studied include types of healthcare institutions; medical ethics and medical law; interaction with patients; scheduling appointments; preparing and maintaining medical records; computerized practice management; billing/insurance terminology; medical health records, and billing and collection. Emphasis is on the use of the CMS-1500 standardized for filing insurance claims.

OFT212 Medical Coding & Billing (6)

This course is designed to provide knowledge and practice in the use of ICD-10-CM and CPT-4 coding systems. Coding conventions, 4th, 5th, 6th, and 7th digits, and modifiers are included. In addition, medical billing with case studies, different insurances, and different claim forms used in a hospital setting or physician's office is included.

Prerequisites: OFT112

PSY242 General and Social Psychology (6)

This course will provide an introductory framework for exploring fundamental, theoretical, and applied concepts related to human development and behavior. In-class lecture and discussion will provide students with an introduction to and an understanding of the principles of perception; an understanding and application of the behavioral science approach to learning and memory; and an understanding of cognitive, developmental, personality, abnormal, and social psychology. Students will also gain knowledge of the scientific research process and research methods, including deductive and inductive reasoning in science; the nature of theory; hypothesis testing and empirical data; and the appreciation of scientific knowledge and its applications.

SOC242 Introduction to Sociology and Social Problems (6)

This course will introduce students to the fundamental ideas and concepts of sociology. The course will also provide an examination of contemporary social problems and their history within American society and on a global level. The course will examine contemporary trends of patterned behavior and emphasis upon the importance and impact of diversity in America. Theoretical perspectives in the current sociological literature will be discussed within a framework of potential societal applications. Research methods and analysis will be introduced and developed throughout the course.

Bachelor in Business Administration

BUS373 Human Resources and Business Ethics (6)

This course is an in-depth study of human resource management. The student will examine and develop an understanding of the role of human resource managers, including their role in planning, job analysis, performance appraisals, talent procurement, orientation, training and development, compensation and benefits, labor management and human resource legislation. This course will also look at ethical principles facing today's leaders and organizations. Students will develop an understanding of the ethical environment of business, the relationship among government and business, and the effect of business on the natural environment. This course will also address the multifaceted issues of corporate responsibility and the role of business in society.

BUS374 Legal Environment of Business (6)

This course is an intensive study of the legal environment of business in the United States, within the framework of the federal and state-level court and legal systems. Also emphasized is the law of agency; the law of business operations – including their nature, creation, management, termination, and the right and liabilities of owners and officers; the law of contracts; the law of commercial paper – including its nature, negotiability, transfer, discharge, and the liabilities and rights of parties; and the law of sales – including sales contracts, related risks, and transfer of title.

BUS475 Business Policy and Strategy (6)

This course provides an integrative experience in applying the knowledge and skills developed in prior coursework within the functional business areas. The student is required to apply concepts from management, accounting, operations, marketing, economics, and finance using the casework and/or simulation approach. The management of a business is approached from an inter-functional, general management perspective, focusing on the formulation, development, and implementation of the overall goals and strategies of the business under conditions of uncertainty.

BUS476 Global Business Perspectives (6)

This course is a study of the international business environment. The course will concentrate on the multinational business aspects of international trade, finance, economics, marketing, operations, planning, and control. The socio-political and legal forces that shape multinational activities abroad will also be analyzed. In addition, the importance of recognizing and interpreting cultural differences in the international business world will be presented, with guidance given on ways to prevent and correct potential business problems and misunderstandings.

ECO343 Current Economic Problems (6)

This course is a study of contemporary economic issues and will provide a comparative analysis of capitalistic, socialist, and mixed economies within this framework. The course will be conducted in seminar format, and students will be expected to participate actively in discussion and preparation of topics. The course will use elementary techniques of economic analysis to examine significant, contemporary economic issues in order to identify, understand and evaluate the consequences of policies advocated to address such issues of economic importance.

ENG353 Critical Thinking and Analysis (6)

This course will allow students to learn how to communicate and analyze information effectively and efficiently in the contemporary workplace. Students will conduct objective research, analyze and interpret a variety of data and media, and present their findings in organized written and oral presentations. The course emphasizes various research methods, listening skills, critical reading and thinking, analysis, and interpretation. An emphasis is also placed on constructing strong arguments.

FIN303 Foundations of Finance (6)

This course is a study of the goals and functions of financial management. Topics include: financial analysis and planning, working capital management, capital budgeting, the time value of money, and debt and equity financing issues. Students will gain insight into the role of finance in the business world and the role of financial managers in an organization.

IT333 Management Information Systems (6)

This course exposes the student to a variety of management issues raised by information technology. The course explores the effects of MIS on business operations, business decisions and analysis, and business systems and organization. Specific topics include productivity, networks and telecommunications, information integration, decision support systems and expert systems, information resource planning, systems analysis and development, and security, privacy, and control of MIS resources.

MA343 Statistical Applications in Business (6)

This course studies various statistical techniques and their application to business. Topics include: descriptive statistics, frequency distributions, sampling techniques, confidence intervals, hypothesis testing, and the laws of probability theory. Linear regression, forecasting, and statistical methods for quality control will also be explored. Examples will be extensively used to demonstrate and apply these techniques to cases relevant to business.

MGT363 Operations Management (6)

This course introduces the student to the management of manufacturing and service operations. Topics covered include: operations strategy and performance measurement, product and service design, process design and improvement, capacity planning, resource planning and scheduling, supply chain management, inventory control, and quality/productivity improvement tools and strategies. In addition, the course considers how operations strategy relates to other organizational functions and focuses on all strategic areas of analytic decision making.

MGT464 Organizational Behavior (6)

This course explains and examines the essential tasks, processes, and dynamics common to all organizations as they adapt to their changing environment. Students will study and analyze administrative processes and objectives designed to efficiently and effectively manage the development of the organization. Focus is on individual, interpersonal, and group behavior within organizations and the interaction of human, technological, and structural factors. In addition, the course will examine the coordination of multiple relationships between organizations.

MGT465 Entrepreneurship (6)

This course is designed to provide students with an understanding of the vital role played by entrepreneurs and entrepreneurship in the 21st century global economy. Entrepreneurship is approached as a way of thinking and acting, as an attitude and a behavior. Our emphasis is on entrepreneurship as a manageable process that can be applied in virtually any organizational setting. The principal focus will be on the creation of new ventures, the ways that they come into being, and factors associated with their success. Students will learn how to prepare a business plan which moves an idea for a new business to a viable enterprise. It is also a course that integrates a number of different disciplines, ranging from sociology and psychology to economics, finance, marketing, and human resource management.

MGT466 Project Management (6)

This course provides the student with the necessary knowledge and skills to function in a project leadership role. All the stages of the project life cycle are explored including the initial identification of project needs and assessing feasibility, project planning and control, budgeting, timeline management, and reporting. Project management software (Microsoft Project) is used to design project schedules using methods such as Gantt charts, program evaluation review technique (PERT), and critical path method (CPM).

SOC343 American Society and Public Policy (6)

This course will examine American society focusing on social trends, demographic, economic, and political issues as a background for reviewing public policy initiatives. It will provide the student with general knowledge about public policy making and administration in the United States. It will review specific policies and methods used to analyze and manage problems. Emphasis will be placed on domestic policies with a cost-benefit evaluation on the national, state, and local levels.
